

ORDINANCE NO. 810

AN ORDINANCE RELATING TO FROST SERVICE  
AND REPAIR OF WATER METERS

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GOLDEN, COLORADO:

Section 1. The first sentence of Section 13.04.020 of the Golden Revised Ordinances of 1965, as amended, is hereby amended as follows:

"13.04.020 Maintenance of Service Connections.  
All customers taking water shall keep their own service pipe and all appurtenances thereto except the water meter in good repair and shall protect them, including the water meter, from frost at their own risk and expense, and shall prevent all unnecessary waste of water, provided, however, the Golden Water Department shall be required to bear the cost of only the initial two frost related service calls to any one water meter during any winter season, and, thereafter the water user shall bear the cost of any frost related water meter service call...."

Section 2. Emergency. The immediate passage of this ordinance is necessary for the preservation of public property, and the health, safety and welfare of citizens of the City of Golden, specifically due to the current extremely cold weather and the inordinate number of frost related water meter service calls now being incurred by the City of Golden.

Section 3. All ordinances or portions of ordinances in conflict herewith are hereby repealed.

Introduced, read and approved on first reading at a special meeting of City Council on the 15th day of January, 1979.

Adopted unanimously on second reading at a special meeting of City Council on this 18th day of January, 1979, and ordered published within ten days hereafter in The Daily Transcript, a newspaper of general circulation within the City of Golden.
